

Newshound.... updates

2004-04-29 07:10:48 by audioc

UK Motorshow preview; NEW SUV snippets, S3 snippets, Allroad production ending; largest Audi Centre; A3 5 door.....So, Audi UK will have a stand at the Motorshow at the NEC (May)- we'll be there, and will report live on the event. There will **NOT** be any concept vehicles there (pity!) but the stand will have a theme.... what it is, we do not know...

The Allroad ceases production at the end of this year (2004), and no replacement has been made... yet. This will leave a gap in the lineup, and when asked about the Pikes Peak making production, nothing would be confirmed. However, there *is* a gap in their line up, that may be filled by both a small **and** a large SUV.....

We hope to get official pictures of the A3 5 door (based in MPV format) mid June- this has been long awaited, and was muted to be an MPV early last year.

The pocket rocket, known as the S3 (*read: want one*) has not been replaced with the current platform. There is no news -as yet- for it's replacement- we will keep our eyes peeled and let you know as soon as we do.....

The worlds largest Audi Centre is due to open in June, up in Scotland, and it looks like we will make the pilgrimage to see our congenial hosts (bring your passports!) Details on the opening event, and the site itself will be revealed once more information has been released.....
